

*COLOR OUTSIDE THE LINES * Black River Publishing*

People are gonna talk, let'm talk let'm talk all they want

They're gonna laugh, gonna judge, let'm laugh, let'm judge, all they want

You're just a fish in a sea of a million, a face in the back of a crowd

But don't you forget for a second, one voice is all you need to be loud

And speak up, stand out, let go, let your hair down, live it like you want to live it just right

No doubts, no boundaries, let it all out, go on and color outside the lines

Ohhh

Ohhh

Life is gonna fly, gonna fly right by you now

There's no time to sit and wait for a day to be your own

A fish in a sea of a million, a face in the back of a crowd

But don't you forget for a second, to make every second count

And speak up, stand out, let go, let your hair down, live it like you want to, live it just right

No doubts, no boundaries, let it all out, go on and color outside the lines

Ohhh

Ohhh

Ohhh

Ohhh

No more livin for the common interest

No more livin to fit the mold

Just livin my life it live it

Because I've been told

To speak up stand out let go let your hair down

Live it like you want to live it just right

No doubts, no boundaries, let it all out, go on and color outside the lines

Ohhh Ohhh Ohhh Ohhh
