Sat down with my grandma on a lawn chair by the lake
She told me some stories about the good ole days
And I said grandma, I know my life has just begun
But grandma, I think I'm missing all the fun
Promise I'll get to do just half the things you've done

I wanna see Montana
Knit a sweater
Build a family
Keep it together
Learn a million songs and sing them loud
I wanna love one man for sixty years
Play gin rummy with my grandkids
I wanna do it all
My grandma showed me how
And she gave me the secret

You sat down on my blanket at a picnic last July
And since then I spent almost every minute by your side
So darling you say you wanna take things slow
But darling I think you're written in my soul
So much we could have together, I'm ready baby let's go

I wanna see Montana
Knit a sweater
Build a family
Keep it together
Learn a million songs and sing them loud
I wanna love one man for sixty years
Play gin rummy with my grandkids
I wanna do it all
My grandma showed me how
And she gave me the secret
